

Description

Twins represents the elegance of asymmetry, based on its multiple reflections. Its unconventional form enhances the beauty of the environment in which it is located and the width of the range also gives us practicality, turning difference into a virtue.

TWINS is born with a peculiar degree of asymmetry in its design that makes it a key piece in the creation of harmony. The collection hosts two versions YR and YL, in both you can see a hidden drain that brings freedom, elegance and minimalism to the shower space.

Formats

YL

(80-90)x(100-180)

YR

(80-90)x(100-180)

Material

· Gelcoat. A composite material of resin and mineral charges, which features an external layer of Gelcoat

Surface finish

- Textura microtex
